Subject: RE: DRAFT AVX Phase III Letter for review by EPA and Paul

.....
>>>>>

I have to take time off tomorrow morning and possibly in the afternoon so looked at this tonight. It looks pretty good to me too, especially the denial of the PRB. I didn't go through our comments to compare them to the points in the letter but I think the PRB denial, the need to address impacts on the Harbor cleanup (recontamination) and the need to consider other alternatives were issues of most concern to us.

Do you think the last section on the IRA work is clear enough? I think Gerard is saying all the IRA work except addressing DNAPL at MW15 was successful and further work to address DNAPL at MW15 should be included in the Phase III. Could add a comment to clarify but will leave it up to you.

I'd also recommend forwarding to Steve Wolf first thing in the morning for a quick look/reaction.

I think this is really good and only have the minor comments incorporated in the attached. I want to reply to Gerard asap so we don't hold this up. Please get me your input first thing Tuesday morning. Thanks.

Importance: High

Hi all,

Attached please find the first draft of the Phase III Letter. I have not looked at it yet, but in the interest of time I thought I would provide it to you to see if you have any comments. I will be reviewing tomorrow and am hoping to send by the end of the day. If you have any comments, please let me know as soon as possible so I can address them.

Thank you,

Gerard

Importance: High

Hi there,

Attached is a clean version of the latest draft. In the attached version I accepted all redline edits and deleted all comments in the margin so EPA and Paul can review in peace. However, the version saved in Angela's Doc Prep Folder still shows all the redline edits and comments.
